

I am an XM radio subscriber. The quality and variety available with XM is not available to me elsewhere. XM's traffic and weather channels are very useful to me and give me a convenient location to get updates on traffic conditions in the areas I drive. I pay for these services and I do not think the National Association of Broadcasters should have the right to tell me what I should and should not hear on XM. Please reject the National Association of Broadcasters petition 04-160. Thank you for taking the time to listen to my opinion.
